

Thai coco

Crafted with Heart

CRAFTED WITH HEART METICULOUSNESS IS OUR MOST VITAL INGREDIENT.

Thai Coco is Caconut-based brand, we directly sourced and hand drafted from Thailand. The company is a family owned brand that launched in 2013 and currently employs the local community to support its operations.

TWe consdentionously plant, cultivate, and harvest the coconut fruit keeping in mind premium quality and sustainability. Thai Coco's farm and manufacturing fadlities are co-located at Ratchaburi (midwest central Thailand) which is an ideal coconut farm location due to the combination of mineral rich soil and arable water source from the Chao Phraya River.

THAICOCO BY THAICOCONUT A LEADING COCONUT MANUFACTURER OF WORLD-CLASS STANDARD

We firmly believe that it is important to put a meticulous effort towards the production while taking consideration of our personnel. Not only a certain step, but we take the entire process to heart from planting, producing to delivering as the products are handed over from the farmers' hands to yours. We are positive that crafting all details with heart will bring "True Quality." It can be translated to our products for the finest result and lasting satisfaction of our customers.

THAICOCONUT JOURNEY

1991

Pasteurised Coconut Milk Manufacturing Factory was initiated

2001

First company launching Aseptic coconut milk for industry by using UHT technology

2008

The new manufacturing Factory was established (expanded product capacity)

2014

to Worldwide market

VIRGIN COCONUT OIL

is a superfood from Southeast Asia where fresh coconuts are cold-pressed right after harvesting. The fresh meat inside each nut yields a pure, smooth oil that is never deodorized, bleached, or refined. Coconut contains lauric acid, a medium-chain fatty acid also found in human breast milk. Lauric acid makes up about 50% of coconut oil. Coconut Oil is naturally liquid at warmer temperatures and is semi-solid to solid at cooler temps.
